To Whom It May Concern:

We wish to state our support of the proposed standard on respiratory protective devices, as a first step in improving the certification process. We feel that this first step recognizes that the certification process finally addresses the health care setting. We are in complete agreement with APIC that the 95% filter efficiency should be acceptable for most health care worker needs.

Thank you.

Sincerely,

Warren Eisenstien, M.D.
Chairman
Infection Control Committee
