USA

**Comments**

Please take short videos of fire scene, with brief comments about the facts. Post the videos with your Firefighter Fatality reports.

As a professor, and 30 years in the fire service, I know the impact of videos.

The Chemical Safety Board has effectively used videos for many years. I have used their videos in my Firefighter Safety & Risk Reduction course.

At the University of Cincinnati, we have videotaped seminars on firefighter cancer, smoke detectors, Homeland Security, and alcoholism in the fire service. Videos are a HIGHLY EFFECTIVE learning tool: [www.uc.edu/cas/firescience](http://www.uc.edu/cas/firescience) - CONTINUING EDUCATION.
