RE: REQUEST FOR EXISTING INFORMATION RELEVANT TO IMPLEMENTING THE
WORKERS' FAMILY PROTECTION ACT, 58 FED. REG. 6020, NOVEMBER 15, 1993

Dear Ms. Manning:

For many years the lead industry and the Lead Industries Association have helped educate employees on steps that should be taken to prevent the transfer of lead from the workplace to the home environment. Attached are two copies of the following items which are available through the Lead Industries Association to employer and employee groups.

- Employee Guide to OSHA Lead Standard
- Lead & Your Health - Tips on Occupational Protection
- Your Right to Know: A Health & Safety Guide for the Lead Industry -- video
- Lead Exposure in the Brass & Bronze Industry -- video

In addition to the above two videos, LIA offers lead exposure videos for the following groups: radiator repair, stained glass, ceramics, indoor firing ranges and a spanish version of "Your Right to Know".

We appreciate the opportunity to submit this information to NIOSH and are available to address any questions that you might have.

Sincerely,

Jeffrey T. Miller, Director
Environmental Health &
Government Affairs
