NIOSH Docket #005

Prepared by Ocenco, Incorporated

April 10, 2009

QuickAir™

The QuickAir™ provides a constant flow of breathing air up to 5 or 10 minutes into a transparent, flame-resistant hood for escape purposes. The hood easily accommodates people with prescriptive eye ware, long hair and beards. The QuickAir™ is lightweight, easy to carry and can be worn over the shoulder or across the chest.

Able to be donned quickly the QuickAir™ carrying bag has easy to follow pictograms to serve as a quick reminder for proper operation. The orange case is highly visible and is durable enough to withstand long-shelf life conditions in extreme environments.

The Quick Air™ is NIOSH approved as a self-contained breathing apparatus for escape purposes. Popular applications include laboratories, chemical plants, power plants and shipboard usage.

ORDER INFORMATION

QuickAir™, 5-minute @ 40 L/min (2216 psi)	4055438
QuickAir™, 10-minute @ 40 L/min (3000 psi)	4054954
Storage Case, QuickAir, 5-minute	4055042
Storage Case, QuickAir, 10-minute	4055041

Oxy K Plus

The Oxy K Plus is a belt wearable Self Contained Self Rescuer (SCSR). Chemically generated oxygen (KO_2), provides a minimum of 60 minutes operational escape time. Unlike filter escape units, the Oxy K Plus operates independent of the ambient atmosphere and can be used in oxygen deficient environments.

Draeger's patented Speed-Flip latch allows for fast and safe opening of the unit. The self-starter immediately flows 6 liters of oxygen into the breathing bag making it immediately available for operation.

This MSHA/NIOSH/EN approved escape unit is designed to meet the rigors of an underground mining or tunneling environment, but can be used in other operations that require longer duration escape devices. The Oxy K Plus has a service life of 8 years when worn daily on the belt and 10 years in storage.
