

Re. Comments on the IBM Worker Study

I am an IBM Retired Employee. In the early My position was in  
dispensing all kinds of chemicals on a daily basis. These chemicals included :  
Trichloroethylene [tce] for the degreasers, Ammonia for the Copiers, kerosene, Naptha,  
Cutting and Lubricating oils, and Plating solvents.

Last Fall I was interviewed by two Attorneys from Law Offices in  
, NY.

I can be reached if need be at phone
