**NIOSH Notice of Proposed Rulemaking: Respiratory Protective
Devices, 42 CFR Part 84; 59 FR 26850; Request for Extension of
Comment Period and Rescheduling of Public Meeting**

The Industrial Safety Equipment Association (ISEA) is the major association representing virtually all U. S. manufacturers of respiratory protection equipment.

This proposal represents a significant change in filter technology. In order to adequately address all the issues raised by the proposed rule, the ISEA is requesting an extension of the comment period on the proposed rule from 45 to 60 days and that the public meeting be rescheduled to occur 30 days after publication of the *Federal Register* Notice.

The ISEA appreciates the opportunity to participate in the advancement of respiratory protection.

Yours sincerely,

A handwritten signature in cursive script that reads "Daniel K. Shipp /jk". The signature is written in black ink and is positioned above the typed name.

Daniel K. Shipp
