Comments

Sirs, As a person from the responder community, I would like to ask you, that people who participated in the first compensation act, also be included in Zadroga on a case by case basis, which is overseen by the Special Master. I opted in on the first compensation program and was awarded for my injuries that I had at the time, since then, I have come down with other problems medically, also at that time my injuries were not so bad that I couldnt return to work, which I did for another 7 yrs, till the new medical problems started cropping up. I have been out of work since 2008 and being able to be compensated for my loss of wages would go a long way in helping my family for the future. I would not seek any further funds for the past injuries I was compensated for, I ask this not for myself, but for my families future as I dont believe I will be around to support them for the time that I would have had, had I not gone down to the towers that day. Thanking you in advance for your consideration of this matter.
