

I was lucky.

"I was busy – working, traveling, enjoying life. I was overdue for a Pap test to check for cervical cancer. By the time I was tested, we thought I might have cervical cancer. After worrying and worrying, I finally got good results. I was so relieved – no cancer!

Women, please stay on top of your health. Get screened for cervical cancer. And get the *Inside Knowledge* about gynecologic cancers."

Cote De Pablo, Actress

The five main gynecologic cancers are: cervical, ovarian, uterine, vaginal, and vulvar. Cervical is the only one with a screening test to help prevent the disease or find it early.

Learn the symptoms and what you can do to prevent gynecologic cancers.
