

How to Create a Link to a Map

Step 1

To get started, create a map using the [CDC's Atlas of Heart Disease and Stroke](#)

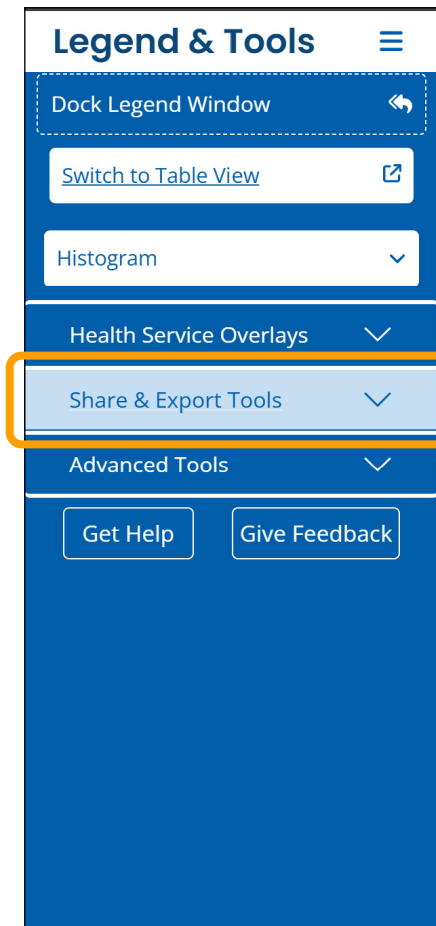

Step 2

Go to the **Legend & Tools** menu at the top right corner of the map. Click on the three bars to release the dropdown menu.

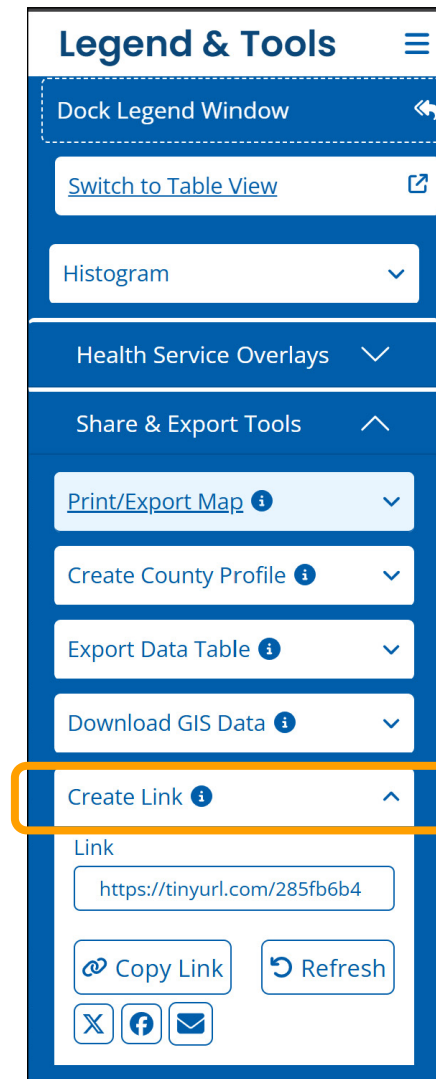

Step 3

Select **Share & Export Tools**.

Step 4

Select **Create Link**.

Step 5

Click on **Copy Link**. The link will be copied and can be shared via communication platforms (e.g., email, social media, website).
