Vaccine Code Set Updates – Details

1. Fall 2025 COVID-19 New Codes and Crosswalks – Novavax NUVAXOVID

FDA approved all new Fall 2025 COVID-19 vaccine codes on 08/27/2025 under Biologics License Application (BLA) licensure and revoked the Emergency Use Authorizations (EUA) previously in place for some of the Fall 2024 COVID-19 vaccines. The NDC codes and crosswalks for the COVID-19 vaccine manufacturer Novavax is now included in the vaccine code set files. At this time, this release completes the codes for the Fall 2025 COVID-19 vaccines approved by the FDA.

The NDCs are added to the code sets once the NDCs have been approved by the FDA and are listed and accessible to CDC in both the FDA drug files and NIH ailyMed.

Separately, CDC has updated the Fall 2025 COVID-19 Vaccine Codes and Crosswalk table. The full table can be found here [Fall Season Respiratory Vaccine Codes | Immunization Information Systems \(IIS\) | CDC](#).
