Vaccines by applicant age	Birth-1 month	2–11 montl	ns 12 months	–6 years	7–10 years	11–17 years	18–64 years	≥ 65 years	
DTP/DTaP/DT	NO	NO YES			NO				
Tdap/Td	NO				Sometimes*	YES metimes* Refer to <u>ACIP Tdap/Td notes</u> for adults without history of primary vaccination series			
Polio**	NO	YES, only administer IPV NO Refer to <u>ACIP Poliovirus notes</u> for adults without history of primary vaccination series							
Measles, Mumps, and Rubella	NO		YES, if born in 1957 or later				NO		
Rotavirus***	NO	YES Six weeks to eight months	NO						
Hib	NO YES 2 through 59 months old			NO					
Hepatitis A	NO			YES 12 months through 18 years old			1	NO	
Hepatitis B	YES, through 59 years old							NO	
Meningococcal (MenACWY)	NO					YES 11 through 18 years old			
Varicella	NO				YES				
Pneumococcal	NO	YES, 2 through 59 months old (Administer PCV)			NO			YES	
Influenza	NO, if less than six r	than six months old YES, ≥6 months (Annually when flu vaccine is available in country of exam)							
COVID-19	NO, if less than six months old			YES, ≥6 months See <u>COVID-19</u> section for additional information					

## Table 1: Vaccine Requirements According to Applicant Age for Panel Physicians

DTP=pediatric formulation diphtheria and tetanus toxoids and pertussis vaccine; DTaP=pediatric formulation diphtheria and tetanus toxoids and pertussis vaccine; DT=pediatric formulation diphtheria and tetanus toxoids; Td=adult formulation tetanus and diphtheria toxoids; Tdap=adolescent and adult formulation tetanus and diphtheria toxoids and acellular pertussis vaccine (\*<u>Children 7-10 years old</u> sometimes need a dose of Tdap depending on their vaccine history. See Diphtheria, Tetanus and Pertussis-Containing Vaccines <u>Catch-Up Guidance</u> on CDC's website for additional information). IPV=inactivated poliovirus vaccine (killed); Hib=*Haemophilus influenzae* type b conjugate vaccine; MenACWY=quadrivalent meningococcal conjugate vaccine; PCV=pneumococcal conjugate vaccine; PPSV=pneumococcal polysaccharide vaccine. \*\* Please see posted <u>Addendum to Technical Instructions for Panel Physicians for Vaccinations</u> on CDC's website for changing guidance about polio vaccine. \*\*\*Rotavirus vaccination should not be initiated for infants aged 15 weeks 0 days or older.

This table describes vaccine requirements for U.S. immigrant visa applicants and does not include recommendations for other clinical purposes. See the <u>Immunization</u> <u>Schedules</u> on CDC's website for number and spacing of doses for required vaccines.
