BETTER HEALTH. BETTER LEARNING.TM

Rev. 10/6/16

Snapshot of Public School Students

In autumn 2021, of the 49.5 million students enrolled in prek-12 schools

1.4 million attended prekindergarten

3.6 million attended kindergarten

Students who are part of immigrant and refugee families

Social Determinants of Health: Impact on Health and Learning

Poverty or financial challenges

Food insecurity

Cultural factors

Literacy and English language proficiency

Access to primary care

Hierarchy of needs

School Nurses Collaborate with Students and Families

School Nurses
Collaborate with
Community Agencies
and Providers

What can make a positive difference?

Children and families are in communities

Schools are in communities

Social determinants influence health and learning

Make connections with schools, especially school nurses to equip with awareness, and education that can be provided to families
