

Ongoing U.S. Monkeypox Outbreak Short Case Report Form

Instructions for State, Local, and Territorial Health Jurisdictions: This form is an aid for public health officials when collecting essential data elements needed for investigating and reporting probable or confirmed monkeypox cases to CDC as part of the ongoing U.S. Monkeypox Outbreak response. Local public health officials may choose to use this fillable PDF for data collection within their jurisdiction, but data submission to CDC should be through established case surveillance systems and not through individually completed forms. Case information should always be captured electronically to minimize transcription errors; however, this form may be printed if needed.

Please visit the CDC Website for the latest public health information about monkeypox:

www.cdc.gov/poxvirus/monkeypox

Note: This form is to be administered to the patient or their proxy—if the patient is deceased, administer with their proxy and/or healthcare provider.
