Round 5: Data collected July 2024

Last revised November 22, 2024

To protect confidentiality, detailed information for some variables are not available on the NCHS Rapid Surveys System public-use data files. Researchers interested in working with variables that were suppressed or edited to protect confidentiality may submit a proposal to the NCHS Research Data Center (RDC).

Additional information is available at: <https://www.cdc.gov/rdc/>.

Persons with disabilities experiencing problems accessing PDF files should contact nchsed@cdc.gov or call 301-458-4688.

This round represents children under the age of 18. The weights provided for analysis are child-level weights. Estimates derived using these weights should be described as the percentage of children under the age 18, not percentages of adults, parents, or households.

CAU_NUMURGNT	
LABEL	Past 12 months, number of times child has gone to an urgent care center or clinic in a drug store
QUESTION TEXT	During the past 12 months, how many times has your child gone to an urgent care center or clinic in a drug store or grocery store about their health? Urgent care centers and clinics in drug stores or grocery stores are places where you do not need to make an appointment ahead of time, and do not usually see the same health care provider at each visit. This is different from a hospital emergency room.

LABEL	Panel Profile: 2013 NCHS Urban Rural Coding - Urban Rural - 6 Levels
QUESTION TEXT	NA - Panel variable
NOTES TEXT	This information was not collected as a part of the Rapid Surveys System survey, but from the panel's profile data. The 2013 NCHS Urban-Rural classification scheme for counties is available at https://www.cdc.gov/nchs/data_access/urban_rural.htm . Large central metro are counties (or county equivalents) in metropolitan statistical areas (MSA) of 1 mil. or more population that 1) contain the entire population of the largest principal city of the MSA, or 2) are completely contained in the largest principal city of the MSA, or 3) contain at least 250,000 residents of any principal city of the MSA. Large fringe metro are counties (or county equivalents) in MSAs of 1 mil. or more population that do not qualify as large central. Medium and small metro are counties (or county equivalents) in MSAs of 250,000 to 999,999 population or in MSAs of less than 250,000 population. Nonmetropolitan are counties (or county equivalents) in micropolitan statistical areas and non-core counties.
