Round 5: Data collected July 2024

Last revised November 22, 2024

Persons with disabilities experiencing problems accessing PDF files should contact nchsed@cdc.gov or call 301-458-4688.

This round represents children under the age of 18. The weights provided for analysis are child-level weights. Estimates derived using these weights should be described as the percentage of children under the age 18, not percentages of adults, parents, or households.

LABEL	Was this a physical, or general purpose check-up for your child?
QUESTION TEXT	Was this a well baby or child visit, physical, or general purpose check-up? This kind of visit typically includes: height and weight measurements, vaccinations, and vision or hearing checks. The doctor or other health professional may also discuss topics related to your child's health such as their growth and development, diet and exercise, safety, and sleep patterns. These visits are usually scheduled in advance and occur when they are not sick. If a wellness exam was combined with a sick care visit, include this visit. An obstetrician/gynecologist (OB/GYN) may perform this visit.
