Client	NCHS
Project Name	RANDS 9 Real Time Survey 3
Project Number	8935
Survey length (median)	20-minute survey
Population	18+ General Population with MENA and Afro-Caribbean oversamples (from non-prob sample only)
Pretest	N=100
Main	N=16,600 (6,600 AmeriSpeak; 10,000 Non-probability*)
MODE	CAWI and CATI
Language	English
Sample Source	AmeriSpeak and Off-panel (TBD)
Incentive	5,000 CAWI; 10,000 CATI
Survey description	General Health Q3 2023
Eligibility Rate	100%

Gender identity. All data about gender identity were collected before Executive Order 14168 issued on January 20, 2025 that changed how federal departments could collect gender information. Experimental questions about gender identity were fielded in RANDS 9. RANDS 9 respondents were asked, "Are you female, male, transgender, non-binary, or another gender?" Respondents had the option to select one or more responses, and to provide the term they used to describe themselves if another gender. RANDS 9 respondents were also asked, "Please list some of the things that you associate with being [your gender]." This was an open-ended question for respondents to respond to in their own words. In compliance with the executive order (Exec. Order No. 14168, 2025) and OPM guidance (OPM Memo, 2025), these data are not available through the RDC.

Some of the content of the questions in the survey are sensitive in nature. This research is covered by a Certificate of Confidentiality from the National Institutes of Health. The Certificate of Confidentiality protects your privacy by prohibiting disclosure of identifiable, sensitive research information to anyone not connected to the research. This means that the researchers cannot release or use information that may identify you in any action or suit unless you say it is okay. An example would be a court subpoena.

The Certificate does not stop reporting what federal, state or local laws require. Some examples are laws that require reporting of child or elder abuse and threats to harm yourself or others. CIPSEA, explained on the next screen, does protect from this reporting and covers this research. Neither protect from any physical harm to yourself or others that may result from this survey. If at any point you do not feel safe while completing the survey, you can stop the survey and complete it at a later time that is better. There will also be resources available throughout the survey should you feel you need talk with anyone.
