

## Hospital Review Worksheet

## How to use this worksheet:

- Use the following worksheet to review and record how your existing hospital operations support your healthcare workers' wellbeing.
- Respond to the easy-to-answer questions (yes/no/in progress). The worksheet also provides space to include a more detailed account of your hospital's current efforts, which will help you as you move along in the Guide.
- Include contact information, if applicable, for leaders or workers who oversee these operations or helped you capture this information.
- Consider bringing in others during the review like clinicians and other staff who can help share their perspective on current operations as they may have a different opinion from those in leadership positions.
