

WINNING THE EARLY STAGES MAKES THE RACE A LOT EASIER.

Especially when it comes to cancer.

The manner in which Lance Armstrong won his tremendous battle against cancer was heroic. But he'll be the first to tell you, it would have been a lot easier if he had caught it early. So when you come to watch Lance and all the other cyclists in this year's Dodge Tour de Georgia, be sure to visit the Healthy Georgia Expo at any of the six finish cities. You'll learn about screening tests used to detect cancer early, as well as information on how to live a healthy lifestyle and a number of other great ways to fight cancer.
